Introduction

International Institute for Corporate Sustainability and Responsibility (IICSR) established in 2015 is a training, research, and development institute dedicated to Responsible Business practices.

We offer courses with International practitioners to develop the global workforce of trained professionals for Sustainable Development. The courses are delivered by online and offline modes coupled with working on research papers, live projects solving global problems for senior executives, for student offering internships, and placement assistance. Our trainers are leading practitioners based in India, Africa, Europe, the USA, and other countries. We are also among the first one's in India to curate 2 years full-time dual degree course in MBA in CSR.

Understanding the requirements of the working professionals we have designed a flexi learning model, self-designed Masters Certificate course with diverse range of courses.

OFFLINE Courses

- Social Return on Investments (SROI) studies
- Introduction to CSR and Social - Value Change
- Workshop on CSR Project Monitoring and Reporting

Course Brief:

Climate change impacts are being felt all around us – rising temperatures and changing precipitation are increasing the risks of floods, droughts, and heat waves for example. These have the potential to adversely impact lives, livelihoods and wellbeing of communities. Businesses and infrastructures are not spared either. This basic level course focuses on understanding the impacts of climatic change, and ways to both adapt, and develop targeted actions.

Outcomes expected:

- Understanding climate change – trends and projections till 2050
- Climate change impacts on key sectors
- Identifying gaps, and bridging the science-policy-practice divide
- Developing solutions for a climate-secure future

Audience:

- Corporates - Multinationals
- CSR Practitioners
- Entrepreneurs, MSMEs
- Post Graduate Students
- Public Officials
- NGOs and Social Enterprises

Digital Felicitation Ceremony

Lead Trainer: Dr. Nishikant Gupta

Climate Change and Environment Management

Dr Nishikant Gupta's decade long experience working on biodiversity, environmental sustainability and climate change in both LDC and MDC countries has enhanced resilient practices by bridging the science-policy-practice gap. He has developed and managed several projects across international organizations to strengthen ecosystem services, livelihoods, and holistic biodiversity conservation which directly feed into policy formulation. He has also initiated crucial interdisciplinary collaborations at various levels of governance, and provided novel solutions which address major ecological and socio-economic challenges in Asia, Europe and Australia aided by 36 scientific publications and 44 diverse set of knowledge products. He now aims to scale-up and scale-out climate adaptation solutions, understand vulnerabilities and opportunities, and develop path-breaking policy documents to boost existing conservation programmes leading to long-term sustainability.
